Usability and Features

- **Dual Access Points**

Equipped with full-length side doors and standard end doors, this container allows for versatile loading and unloading options, accommodating various cargo types with ease.

- **Robust Steel Construction**

Constructed from 14-gauge high-strength corrugated steel, ensuring durability and resistance against harsh environmental conditions.

- **Customizable Interior Options**

The container can be easily modified with added doors, windows, insulation, heating or cooling systems to suit specific operational needs.

- **Secure Locking Mechanisms**

Features a built-in lockbox and reinforced structural elements to maintain integrity and provide enhanced security for stored items.

- **Forklift Pockets and Corner Castings**

Includes forklift pockets and corner castings for efficient handling and stability during transportation.

- **Spacious Interior**

Offers an internal capacity of approximately 35 cubic meters, suitable for various storage and transportation needs.
