Usability and Features

- **Heavy-Duty Steel Frame**

Built from ASTM A572 Grade 50 high-strength steel with a W12@19 lb/ft hot-rolled H-beam structure for maximum durability and load capacity.

- **Adjustable Slider Mechanism**

Includes a 4-1/4" x 6" x 5/16" tubular slider with spring-loaded locking pins for secure container positioning during transit.

- **Robust Axle System**

Features dual 22,500 lb capacity axles with a 49" axle spread and 16.5" x 7" Q brakes for stable load distribution and braking power.

- **Landing Gear Capacity**

Equipped with JOST or Holland 2-speed landing gear rated for 50,000 lbs with 19" travel and a low-profile sand shoe.

- **ABS Braking System**

Advanced anti-lock braking system prevents tire lock-up, improving road safety and control under all conditions.

- **Optimized Dimensions**

Offers 96" width, 52" rear deck height, and 23'-6" to 27'-6" adjustable length, ensuring compatibility with standard ISO containers.

Dimensions (ft/m)
